

Parenting Partners Training Process

1. Teams send up to five volunteers to train others to become presenters.

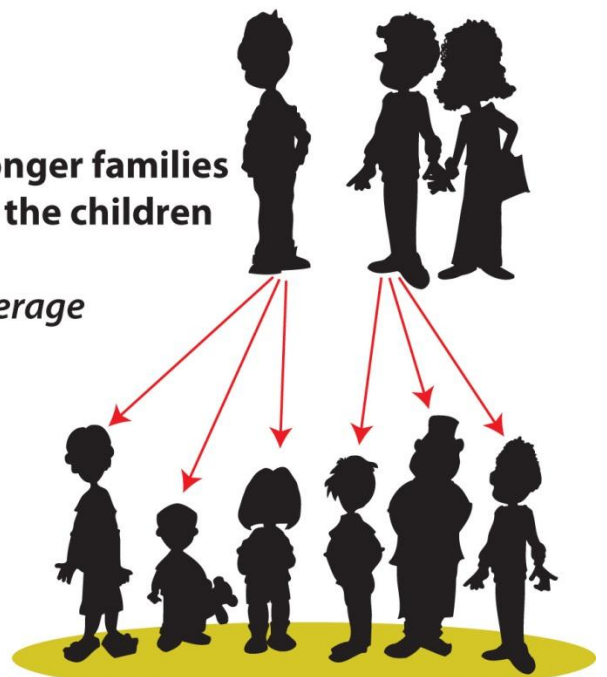

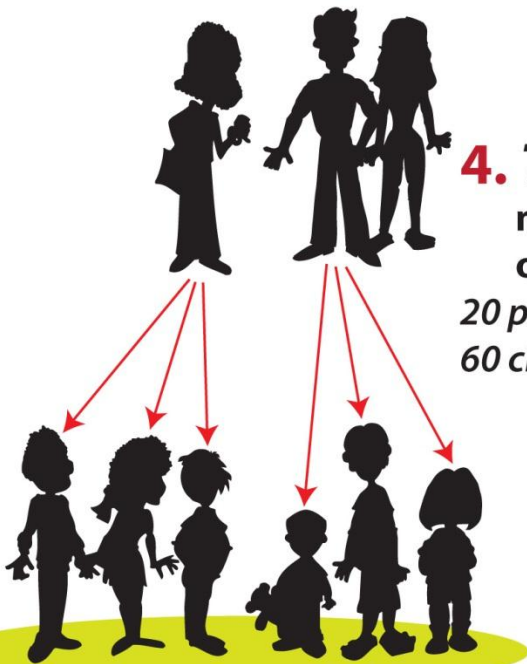

2. The teams attend the two day facilitators training together.

3. Our teams now lead the eight week workshop series for parents.

4. The benefit of stronger families multiplies through the children of our parents!

*20 parent graduates average
60 children total.*

5. The teams and parent graduates then lead the workshop series for more parents, multiplying the impact again and again.
